

## **Property Committee Charge**

(Approved **21<sup>st</sup> Third Month, 2021**)

As stewards of our meetinghouse and grounds, it is the committee's mission to maintain the building and grounds for present use and to preserve them for future generations, while respecting the historic legacy of the property. We seek to maintain the meetinghouse so it is safe, clean, welcoming, comfortable, accessible to all, and reflective of our testimonies. The financial costs and benefits of proposed projects are clearly presented to Meeting for its discernment.

We support our spirit and nature minute by using green products whenever possible and being mindful of our carbon footprint.

We encourage members and attenders to participate in maintaining the building and property in order to minimize the use of outside contractors. We are responsible for procuring paper products and cleaning supplies with the exception of those used in the kitchen.
